DETAILS OF BLOOD / PCR SAMPLING

Date sampled: No of blood samples: No of PCR samples:

DECLARATION BY OFFICIAL TAKING BLOOD / PCR SAMPLES

I confirm that I personally took the blood samples and the PCR samples from the Flock Registration Number as indicated on this Flock Movement Passport, that I personally and without interference selected each ostrich that was sampled, that all ostriches selected & sampled were fitted with an ID tag that was already entered in the Flock Movement Passport and that the number of ostriches available for sampling were the same as entered in the Flock Movement Passport (less reported mortalities).
